CATALOGUE(S)

Perspectives on short to long-term

- **Short-term (End 2017):** Publication of H2020 (2014-2015-2016) mapping document complementing FP7 mapping + CoU meetings with joint thematic workshops – **CONSOLIDATING MAPPING AND WAYS TO INTERACT AMONG DIFFERENT ACTORS**
- **Medium-term (from early 2018 onward):** Building up stronger links among future research projects and policy sectors, and interactions among research and capacity building – Regular exchanges among different actors – **REINFORCING DIALOGUE, BRIDGING INITIATIVES**
- **Long-term (3-5 years horizon):** Consolidation of the CoU exchange platform with expected supporting impact on H2020 and policy implementation – enhanced links with users, return of experiences from industry and operators (access to market, involvement of first responders) – **NEW PARADIGM IN ACTION**
